670.5 v.19

IN TWO SECTIONS—SECTION TWO

Index to Volume Nineteen of The Paper Industry

April, 1937—March, 1938

Page numbers in this index are preceded by numbers of the issues. April, 1937, is No. 1 and March, 1938, is No. 12

A

Absorption of ultraviolet light by cellulose 11, 1319
Accident reduction in fleet operation 3, 323
Accomplishments and problems in wood chemistry 11, 1313
Acid pulping of southern pine-sulphite pulps for newsprint and viscose 8, 951
Added notes on the running of beaters 1, 52
Adhesive properties of lignin and cellulose 11, 1273
Adsorption and removal of dyes from straw 8, 987
Advances in pulp and paper testing in 1936 ..... 6, 699
Advances in special paper manufacture 11, 1313
Air compressor inlet and discharge valves should be removed occasionally 6, 691
Alkali solubility and the rate of beating sulphite pulp 10, 1209
Alloy steel materials of construction for pulp and paper mills ... 12, 1426
Alloys used in paper manufacture, nickel 12, 1453
Alum . . . its use and effect 10, 1163
Analyses of buried Kauri wood ... 10, 1207
Analysis of electric power supply system for pulp and paper mills. 12, 1427
Analysis of impregnating agents in paper 5, 581
Analysis of the grinding action ... 11, 1288
Analytical study of various pulps with reference to alkali binding and rosin sizing 12, 1423
Anchor and frazil ice troubles, overcoming 8, 979
Anderson, Donald B., Growth and structure of the cotton fiber, the 2, 215
Annual progress report of TAPPI, paper testing committee 12, 1412
Application engineering development 11, 1284
Application of gearmotors and speed reducers 4, 445
Arnold, G. C., F. A. Simmonds and C. E. Curran, Solubility of chlorinated lignin in alkaline solutions 12, 1414
Arnold, L. E., Development of forming machine for insulating board 8, 935
Asbestos dryer felts, cotton versus 2, 163
Association Meetings:
American Chemical Society, Division of Cellulose 2, 213
American Chemical Society meeting 6, 676
A.P.P.A. has record attendance at sixty-first annual meeting 12, 1409
Canadian Technical Section holds highly successful meeting 11, 1287
Canadian Technical Section, summer meeting 4, 452
International Acetylene Association awards Morehead Medal 8, 973
Salesmen's Association roster reaches highest mark 12, 1432
Superintendents' Convention, stage is set for 3, 327
Superintendents hold 18th annual convention 4, 432
T.A.P.P.I. fall meeting, interest centers on 5, 575
makes progress in paper testing standardization ... 6, 685
meets in Savannah 8, 942
meetings of divisional bodies 12, 1429
to meet at Savannah 3, 315
twenty-third annual meeting 12, 1411
Atmospheric moisture and its relation to newsprint 10, 1174

B

Bailey, A. J., Adhesive properties of lignin and cellulose 11, 1273
Bailey, I. W., Visible structure of the cell walls of the higher plants, the 2, 213
Baird, P. K. (See C. O. Seborg)
Ball bearings, the care of motor ... 6, 677
Bamboo pulp for rayon 3, 337
Banan, K. F., Modernized coating machine speeds production 6, 671
Barber, Franklin, and Jessie E. Minor, Viscosity of cuprammonium solutions 1, 60
Barber, Frederic G., Freeness tester in manufacture of boxboard and test liners 5, 545
Baumrucker, Jr., Wm., Atmospheric moisture and its relation to newsprint 10, 1174
Beater room control 12, 1417
Beaters, added notes on the running of 1, 52
Becker, F. K., Meeting today's standard of paper cleanness 4, 436
Beech pulp, European 6, 693
Belt life, factors influencing 8, 934
Bending endurance tester 4, 475
Bending moments at the corners of bins and chests 8, 939
Bennett, Reo, The Brazilian paper industry 10, 1166
Berkley, Earl E., Analysis of X-ray diffraction patterns of raw cotton fiber with a new photo-electric densitometer 2, 217
Bingham, E. T., (See W. R. Willets)
Biological methods in paper diagnosis 12, 1423
Bixler, A. L. M., Effect of digestion on wood structure 12, 1415
Black-light in the paper industry. 12, 1398
Blanketing may be caused by fine spray 12, 1449
Bleaching groundwood pulp 9, 1095
Blowoff piping 5, 579
Blueprint paper, a recipe for making 11, 1311
Blum, Samuel, Steam for board mills 4, 436
Bock, L. H., Water soluble cellulose ethers 2, 219
Bode, Harry L., Conditioning corrugated boxes and box boards for test purposes 12, 1417
Boiler cleansing, periodic 2, 225
feedwater treatment 12, 1423
in shape, keeping the 10, 1201
plant modernization 9, 1076
surfaces, clean 12, 1449
Booth, L. M., Alum—its use and effect 10, 1163
Boxboard and test liners, freeness tester in manufacture of 5, 545
Brautlecht, C. A., Dr., Progress in kraft pulp production 4, 438
Bray, M. W., and C. E. Curran, Sulphate pulping of southern yellow pines—effect of growth conditions on yield and quality 8, 948
J. S. Martin and S. L. Schwartz, Sulphate pulping of longleaf pines—effect of chemical—wood ration on yield and quality of pulp 8, 948
and G. H. Chidester, Dr. C. E. Curran, Characteristics of sulphite and kraft pulps from blue-stained southern pine 12, 1423
Brazilian paper industry, the 10, 1166
Brown, Stanley, Fly ash prevention 12, 1427
Brushes, care of 10, 1201
lubrication of 11, 1311
Bryant, Earl O., and Lamar A. Moss, Photographic study of the motion of fibers and water in flowing fiber suspensions 12, 1415
Business, human values in 11, 1281

C

Cameron, F. K. (See D. T. Milne)
Campbell, Dr. J. and L. O. Rolleston, High density vacuum bleaching of kraft paper 8, 947
Care of brushes 10, 1201
controllers 11, 1311
motor ball bearings 6, 677
Carpenter, Dr. Charles, Acid pulping of southern pine-sulphite pulps for newsprint and viscose. 8, 951
Catalysts in pulp bleaching 9, 1099
Cellulose and lignin, adhesive properties of 11, 1273
nitrate in the paper industry. 10, 1203
oxidation, recent work on 11, 1317
ultraviolet absorption of light by 11, 1319
Center, C. Eugene (See N. L. Danforth) (See F. Parke Mattison)
Chain drives, installation of silent 5, 579
Champion's sulphate pulp mill in Texas 3, 303
Texas mill, wood handling conveyors at 5, 562
Characteristics of sulphite and kraft pulps from blue-stained southern pine 12, 1423
Chemical balance for a continuous recausticizing system 8, 948
classification of lignins 6, 693
exposition, extensive preparations for sixteenth 4, 463
losses in alkaline pulping, factors in 4, 438
Society meeting, interesting papers at American 6, 676
Chemistry of spruce knots in relation to the sulphite cook 12, 1451
Chidester, G. H., M. W. Bray and Dr. C. E. Curran, Characteristics of sulphite and kraft pulps from blue-stained southern pine. 12, 1423
and J. N. McGovern, G. C. McNaughton, Comparison of sulphite pulps from east growth loblolly, shortleaf, longleaf and slash pines 12, 1423
Chlorination of plant tissues 2, 227
Christensen, H. G. (See Lyne S. Metcalfe)
Clark, G. L. and E. A. Parker, X-ray diffraction study of the action of liquid ammonia on cellulose and its derivatives, an ... 2, 213

Clarke, Harry Newton, Men, money, management and misunderstanding 4, 444
Clays of Mississippi.....11, 1276
Clean boiler surfaces.....12, 1449
Coal research and fuel engineering to industry, value of..... 6, 665
Coating machine speeds production, modernized 6, 671
Codwise, Philip W., Requirements of sulphite pulp in folding box board manufacture 11, 1290
Cohen, Wilby B. and Elwin E. Harris, Pretreatment of wood with hot dilute acid and its effect on lignin values 2, 219
Colors were used in dyeing this paper? What 7, 771
Combustion efficiency determined by excess air..... 5, 579
Committee report of construction materials used in kraft mills..12, 1426
Comparison of sulphite pulps from fast growth loblolly, shortleaf, longleaf, and slash pines.....12, 1423
Comprehensive study of kollergang treatment 9, 1097
Concrete may be colored..... 6, 699
Condenser operation, effect of cooling water temperature on.....12, 1449
Conditioning corrugated boxes and box boards for test purposes....12, 1417
Conductivity measurements on paper extracts 3, 335
Conductivity measurements on paper extracts 4, 477
Connecting motor to load.....12, 1407
Connor, C. M., The effect of alkalinity and impurities on the stability of calcium hypochlorite...12, 1419
and Harry Specht, Factors influencing drainage through fourdrinier wires 12, 1422
Container committee report.....12, 1412
Container testing standards.....12, 1417
Controlled stock preparation.....12, 1420
Controllers, care of.....11, 1311
Cooper, A. M., More uniform rolls on drum reels.....12, 1402
Corrosion due to oil..... 4, 469
Cosler, A. S., Disc refining in connection with pulp processing and reject utilization..... 4, 440
Cost engineering..... 4, 442
Cost of pulpwood at southern mills 8, 944
Cotton versus asbestos dryer felts. 2, 163
Cowles classifiner and waste paper systems, the.....12, 1418
Cowles, Edwin C., Cowles classifiner and waste paper systems, the...12, 1418
Cuprammonium solutions, viscosity of..... 1, 60
Curran, C. E. (See G. C. Arnold, M. W. Bray, G. H. Chidester and E. R. Schafer)
Current survey of paper and paper products 5, 568
Current Thought:
